

Targus Portable Laptop Stands

Ergonomic Connectivity Anywhere

Streamline Your Desktop with Single Cable Power

Using your laptop's USB-C® port, these laptop stands add ports so you can connect essential accessories with ease. The USB-C host cable supports PD pass-thru with Fast Role Swap* up to 100W** to ensure your laptop maintains its charge while you work.

Help Minimize Neck Fatigue to Improve Productivity

Without using any tools, adjust the height of your laptop at 5 different angles to help place your device in an optimal position for daily work. Plus, it allows for better air flow to help keep your laptop cooler.

Sturdy and Portable

High-quality aluminum makes these laptop stands ultra-lightweight and allow for efficient heat reduction while you work. Non-slip pads on the top and base hold the stand and your laptop in place. Its foldable design makes it easy to pack up and carry.

* Requires compatible PD 3.0 host

** USB-C PD power adapter is not included.

*** HDMI ports support USB-C DP Alt Mode and requires compatible USB-C DisplayPort™ Alternate Mode host. Supports (2) independent screens in Windows or Chromebook, (1) in iPadOS® and (1) in macOS (dual mirror).
